Mbsm.tn, Plugins wordpress 2025, resolve problem, Autoloaded options could affect

performance, by Mbsmgroup

Category: Machine Learning
written by Mbsm.tn | 16 March 2025

The screenshot shows the 'Site Health' section of the WordPress dashboard. It indicates a 'Should be improved' status. A critical issue is listed: 'Autoloaded options could affect performance'. The issue details state: 'Autoloaded options are configuration settings for plugins and themes that are automatically loaded with every page load in WordPress. Having too many autoloaded options can slow down your site. Your site has 1055 autoloaded options (size: 982 KB) in the options table, which could cause your site to be slow. You can review the options being autoloaded in your database and remove any options that are no longer needed by your site.' A link to 'More info about optimizing autoloaded options' is provided.

The Attachments Table Plugin is a custom WordPress plugin that automatically displays all attachments (images, files) and links found within a post in a neatly organized table at the bottom of the page. It enhances user experience by providing quick access to downloadable files, embedded images, and external links

The T568A and T568B standards define the arrangement of wires inside RJ-45 network cables, where each standard specifies a different color order, affecting how cables are connected to devices. The choice between them depends on compatibility with existing infrastructure or personal preference.
