When you encounter an error message indicating that the `vcruntime140d.dll` file is missing or not found while running an application like `appserv-x64-9.3.0`, it usually means that the application depends on the Visual C++ Redistributable library that contains this file. In the case of the error mentioning `vcruntime140d.dll`, it indicates that the application is looking for a development-specific version of the library (the `d` in the filename denotes the debug/development version).
